Check how much your medicine will cost you.

Now it's easy to find the best price on your prescription drugs.

Did you know that the same prescription drug can cost more at one pharmacy than another — and can change from one week to the next?

For many reasons, drug prices rise and fall. The price of a drug may go down if lots of similar drugs are available, and may be expensive if the drug is unique. Sometimes drug makers must change the price because their costs go up or down. And pharmacies may change prices based on their contracts with drug makers. Plus, some pharmacies offer promotions or discounts from time to time that can help you save.

Got a few minutes? Save a few dollars.

You could save money by comparing prices and finding the lowest cost. Usually, you'll save the most by choosing generic drugs, and possibly save more by using our preferred home delivery pharmacy, managed by Express Scripts.

Three easy ways to check prices on your prescription drugs:

1. Go to anthem.com

- Under Useful Tools, choose **Prescription Benefits** and log in to your account.
- In the Pharmacy Benefits section, select
 Price a Medication. You will be redirected to express-scripts.com.
- In the space provided, enter at least the first three (3) letters of the drug name and click **Search**.
- Select your drug, including the proper dosage, and click **Continue**.
- Fill in the information for quantity, days' supply and reason for brand drug preference (if asked), then click **Continue**.
- View the results displayed, which will show you what you pay for the drug at a retail pharmacy vs. our preferred home delivery pharmacy.

2. Visit your pharmacy.

Before filling your prescription, your pharmacist can tell you how much it will cost. If you think the cost is too high, talk to your doctor about other options.

3. Call us.

You can get a price quote by calling the phone number on your member ID card. Simply provide:

- Drug name
- Strength
- Form (such as tablet or capsule)
- Quantity and days' supply (for example, 30 tablets per 30 days)

*Express Scripts is the company that manages the operations of your drug plan. The first time you're directed to the Express Scripts website, you'll go through a brief registration. The purpose is to set your preferences for email and privacy. You'll do this only once. Please do not go directly to the Express Scripts website. The only way to make sure you're viewing your pharmacy information correctly is by logging in to anthem.com first.
