Addendum #1
FOR IMMEDIATE ATTENTION

Addendum No.1 TO ALL BIDDERS:

REFERENCE: INVITATION FOR BID:

IFB#016-0-2025/KG

For Delivery To:

Classroom Math Kits

Bid Due:

Newport News Public Schools

April 28, 2025 at 11:00 A.M. EST

The above is hereby changed to read:

1. Update to Electronic Bid Submissions: Reference Page 1:

***ELECTRONIC BIDS** All bids/proposals may be submitted electronically online via eVA until Closing Date and Closing Time as specified in this solicitation including any addenda issued by this office using the Bidder's established eVA Supplier Account. The entire bid/proposal response including any /all attachments and any/all addenda must be submitted electronically via eVA, in person no later than the closing date and time stated in the solicitation posting. Faxed or emailed bids will not be accepted. Newport News Public Schools is not responsible for electronic late delivery.

Bidders are highly encouraged to anticipate and plan for technical or heavy email transmission traffic at the last minute and should email responses ahead of the time posted. All inquiries for information regarding this Invitation for Bid should be directed to Karlene Greenhow at karlene.greenhow@nn.k12.va.us.

2. Responses to Pre-Bid Questions:

- a. I have reviewed the materials for IFB016-0-2025/KG and noted that quite a few of the individual line items have a quantity of (1) in the unit of measure column but seem as though they should have a larger quantity specified. Also, some items have a quantity listed in one lot,

but not another. An example of this would be counting bears. Should we assume if there is a quantity for one lot then the quantity would be the same for other lots as well? **Refer to the updated price list.**

- b. I have attached a copy of the list of contents that has the lines highlighted where I think additional clarification on quantities would be helpful. Sometimes these items come in multiple size packs so it would be good to know what size is desired. For example, unifix cubes come in quantities such as 100, 200, 500 and 1,000. **Refer to the updated price list.**
- c. I would like some clarification on the amount of kits you will be needing. The items in LOT 1 for example, will you need 91 of that complete LOT? So, 91 storage boxes filled with the rest of the items on the list. Or do you need those items on the list packaged into 91 kits? **Refer to the updated price list.**
- d. I have a question about how to fill out attachment A. **The total for each lot times the number of kits per grade level on page 5, General requirements, number 8.**
- e. Are there any reference brands and part numbers available? **Refer to the updated price list.**
- f. During the pre-bid meeting there was reference to an addendum with updated quantities. I do not currently see it on the proposal's website. Can you direct me to where I can find that, or how do we access that document? **Please refer to Special Instructions to the Bidder on page 6, Letter E.**
- g. During the pre-bid conference via Zoom, there was a revised Attachment A- pricing schedule quantities that included quantities and a bit more information for the products in each kit. I understand that there will not be an addenda for the quantities until April 14th, but would it be possible to get a copy of the revised Pricing Schedules so we can see if we have any questions on that as well? **Please refer to Special Instructions to the Bidder on page 6, Letter E.**
- h. We wanted to know when the vendor questionnaire/addendum shall be published? **Please refer to Special Instructions to the Bidder on page 6, Letter E.**
- i. I wanted to follow up on the Math Kit Solicitation materials. I believe during the pre-bid conference you showed an updated version of the response sheet with the additional quantity details, but I don't see that version updated to eVA. Is that something you can upload so the full details are included? **Please refer to Special Instructions to the Bidder on page 6, Letter E.**
- j. What date will the vendor be notified of award? **The bid closes on April 28th at 11:00 am EST, the apparent low bidder that has been determined to be responsive and responsible will be notified after the bids are reviewed.**
- k. What date can the awarded vendor expect the purchase order? **Please refer to Special Terms and Conditions on page 16, Letter A.**
- l. Is delivery to the NNPS warehouse or multiple schools? The RFP (page 5) states delivery to the warehouse (A-5) but also notes delivery to designated schools (B-6). If to multiple schools, how many? **The Classroom Math Kits will be delivered to the Warehouse located at 12551 Patrick Henry Drive Newport News VA 23602, only.**
- m. Delivery of kits by June 30th. Is this deadline for a specific need (such as a funding deadline)? Can delivery be accepted after this date? **The kits need to be delivered by June 30th so that administrators will have time to do inventory and disseminate when teachers return as well as for on-site PD in July. We could extend the deadline to mid-July if needed.**

- n. Most product descriptions are vague in terms of detail and package sizes. Can the customer provide further specifications/package sizes for their needs? If vendors are left to guess, they will receive a wide range of quotes based on assumptions and not have an 'apples to apples' comparison for pricing. For example, Grade 2 below. Base ten blocks, liquid measurement set, coins and bills – can they provide specifications such as - Base Ten Units Qty/500, Base Ten Rods Qty/250, Base Ten Flats Qty/100. **Refer to the updated price list.**
- o. Items such as Fraction Bars, Cuisenaire Rods, Fraction Circles, Geoboards, etc. – these note a quantity of 1. As these are class kits, my assumption would be they would want more than 1 of each of these types of items. The addition of Package Sizes or updating the quantity per kit is needed. **Refer to the updated price list.**
- p. For items such as the coins, are there specific coins needed? Pennies, nickels, quarters, dimes, no specific number of each. It needs to be a reasonable range for each type.
- q. For the base ten are you looking for units, rods, flats, and thousands cube, and are all the grade levels requesting them? **Yes, base ten set that include units, rods, flats, and tubes. Each grade level has different items designated but whatever we requested base ten, we would like the entire set.**
- r. For the exploragons, are there specific pieces required? **Exploragons do require specific pieces, but we do want a set.**
- s. Do you want the fraction bars and circles to be labeled or unlabeled or is there no preference? **We prefer unlabeled but labeled is also acceptable.**
- t. The liquid measuring sets, what types of items are required, measuring cusps, spoons, jars? **The liquid measurement sets refer to US customary containers such as gallons, pint, quarts. Liquid measurement set should include containers and measuring cups.**
- u. Grades 1 & 2 require yellow and blue pony beads, is yellow a required color or can it be two different colors of pony beads? **Pony beads listed are preferred but two (2) distinct colors is what is most important.**

3. Attachment A – Pricing Schedule Price Clarifications:
