

THE IMPORTANCE OF MATH MINDSET

"Everyone is a Math Person"

Instead of this...

I wasn't good at math.

You are really smart.

You got an A.

You got all these questions wrong.

This isn't the way I learned math.

Say this!

Let's try to learn this together.

You worked really hard.

You earned an A.

Let's learn how to do the problems you didn't get right.

It's exciting to learn different ways of doing math.

Power of Yet - Carol Dweck

Show your child they can grow the power of their own brains.
